

KANISHK KAPOOR

Sales Engineer / Solutions — Technical Sales for AI-native products

New Delhi · relocating (UK visa-qualified · Canadian work permit) | kanishk Kapoor2001@gmail.com · +91 97110 17316
linkedin.com/in/kanishk Kapoor2001 | Portfolio (live demos & outcomes): kanishk Kapoor2001-coder.github.io/kanishk-portfolio

Technical seller across 5 years of sales and GTM roles — startups, a venture studio, and healthcare. At Peach I ran the full sales cycle as the first sales hire: **50+ meetings booked in 6 months** and **₹1 Cr closed in 10 months** (≈40% from pipeline I sourced and drove through close). The rare part: **I build what I sell** — my own outbound engine, demo environments, and working prototypes, shipped end-to-end.

SKILLS

Sales craft	Technical Discovery · Product Demos · Proof-of-Concept design · Outbound & Pipeline · Stakeholder Management · MEDDIC-structured qualification
Technical	Python · SQL (working) · REST APIs · LLM APIs & RAG · Next.js/React prototypes — shipped an AI SDR, a job-search agent, and a 17-regulator RegTech scraper solo
Stack	Salesforce · Notion · n8n · Zapier · Google Workspace · Excel/PowerPoint

EXPERIENCE

5A Ventures — Go-To-Market & Founder's Office

Mar 2026 – Present

Venture studio building AI-native startups · New Delhi

Lead GTM and product validation across the portfolio; running point 0→1 on three ventures:

- **Factory Eye (Founder)** — Edge-AI visual inspection for auto-parts manufacturers. **Self-sourced 12 meetings in 3 weeks** and ran 6 factory-floor discovery visits; signed an NDA with a Honda/Maruti supplier; drove the founding hardware-engineer hire; spec'd a sub-\$900 on-device station (Raspberry Pi + Hailo + YOLOv8) vs \$18K–\$240K incumbent rigs. Approaching first revenue.
- **Sigil (Co-Founder)** — Legal-AI for fast-scaling SaaS contract work. Own everything commercial: ICP, positioning, pricing, and pitch. Designed, built, and shipped **sigil91.com** end-to-end; now running the **design-partner motion** with early prospects.
- **RegMitra (Product validation)** — RegTech for Chartered Accountants. Ran **13+ recorded expert interviews**, a blind 3-LLM benchmark on live GST circulars, and Van Westendorp pricing; built the working prototype (17-regulator Python scraper + deterministic applicability engine).

Peach — GTM Lead (first sales hire)

Mar 2025 – May 2026

AI platform for personalizing education (B2B) · New Delhi · team absorbed into 5A Ventures

- Owned the full sales cycle solo — personalized outbound, technical discovery, product demos, and close — translating an AI product for non-technical education buyers; **booked 50+ meetings in the first 6 months**.
- Company closed **₹1 Cr in revenue over 10 months**; sourced ≈40% of it from my own pipeline and managed those stakeholder relationships through close; initiated **4 co-build partnerships** that generated primary product data.

Iridia Medical — Chief of Staff

May – Dec 2023

Workplace mental-health solutions · Vancouver, BC

- Helped build the consulting wing 0→1: owned the sales pipeline (migrated Excel → CRM, improving tracking and conversion) and drove adoption through webinars, seminars, and trade shows.

Earlier

- **Invest India** — BD Intern, Team Americas (2022): curated 350+ high-potential targets from investment criteria; cold calls/emails at a **20% conversation rate and 10% meeting-booking rate**.
- **Applause Entertainment** — Assistant Writer, Mumbai (2024–25): writers' room, Bollywood-funded feature. **KASA Properties** — Sales Intern, Berkeley, CA (2021): owned viewings and leasing pipeline; **85% occupancy across 4 properties**.

EDUCATION

University of British Columbia — BA, Political Science & Commerce (Co-op)

May 2024

Valid Canadian Work Permit · Qualifies for UK HNI visa · Teaching Assistant, UBC Sauder (Strategic Management capstone)
